

LUGGAGE LABELS OF THE NORTH LONDON RAILWAY

As some members will be aware the late David Wright had started to compile a list of all known North London Rly. luggage labels shortly before his untimely death. I have recently unearthed my copy of that list plus some additions. The amended list is reproduced below, and I would ask if everyone could check whether they can make any further additions to it, and I will collate the results. A fully revised list can then in due course be published. It would be very appropriate to David's memory for us to complete as far as possible the work that he had started. Illustrations have been added overleaf from the late Trefor David's collection and a description of the various types of label is to be found in RPS 1.
